When the UL Leaf Mark is on the product, or when the word "Environment" is included in the UL Mark, please search the [UL Environment database](#) for additional information regarding this product's certification.

The appearance of a company's name or product in this database does not in itself assure that products so identified have been manufactured under UL's Follow-Up Service. Only those products bearing the UL Mark should be considered to be Listed and covered under UL's Follow-Up Service. Always look for the Mark on the product.

UL permits the reproduction of the material contained in the Online Certification Directory subject to the following conditions: 1. The Guide Information, Designs and/or Listings (files) must be presented in their entirety and in a non-misleading manner, without any manipulation of the data (or drawings). 2. Information Technology Equipment Including Electrical Business Equipment - Component

The devices covered under this category are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. THE FINAL ACCEPTANCE OF THE COMPONENT IS DEPENDENT UPON ITS INSTALLATION AND USE IN COMPLETE EQUIPMENT SUBMITTED TO UL.

GENERAL

This category covers components intended for use in information technology equipment.

Devices in this category may have the following features as indicated in the individual Recognitions:

Feature	
Rated Input Volts	Rated input voltage and frequency or dc of component
Load Amps	Maximum current loading of component during normal operation
F/R	Flame rating of fire enclosure (V-1, V-0 or 5V) or decorative bezel (DEC/HB or DEC/V-2)
Laser Class	Component's laser class in accordance with FDA 21 CFR, Sub-part J (I, II, IIa, IIIa, IIIb)

CONDITIONS OF ACCEPTABILITY

Consideration is to be given to the Conditions of Acceptability specified in the individual Recognitions when these components are employed in the end-use equipment.

REQUIREMENTS

The basic standards currently used to investigate products in this category are [UL 60950](#) or [UL 60950-1](#), "Safety of Information Technology Equipment," or [UL 60950-21](#), "Safety of Information Technology Equipment - Remote Power Feeding," as appropriate.

UL, in performing its functions in accordance with its objectives, does not assume or undertake to discharge any responsibility of the manufacturer or any other party. UL shall not incur any obligation or liability for any loss, expense or damages, including incidental or consequential damages, arising out of or in connection with the use, interpretation of, or reliance upon this Guide Information.
